# **ALL BIDDERS PLEASE READ**

## **Terms Governing This Sale**

Bidders unknown to us will please furnish bank or other references or deposit 25 per cent with their bids and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. You must be satisfied. **PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 per cent over the next highest bid. Numbers in ( ) are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

## **NOTICE TO NEW BIDDERS**

### **Our Mail Auction Sales Are Conducted in the Following**

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL—IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. Bids you send in are the maximum you are willing to pay for the coin. **WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuations placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

**ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED.** No, you won't receive a nasty letter for returning a coin—instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins each month. Whenever this happens, we want it called to our attention to help prevent future errors.

The coins will be on display the day of the sale at our offices and can be seen by appointment any day prior to the sale.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

**A. M. KAGIN**

**PAUL KAGIN**

**HOLLINBECK COIN COMPANY**

Any coins may be inspected prior to the sale, collector to pay postage and insurance both ways.

**YOU WILL WANT A PRICE LIST OF THIS SALE  
TO KNOW WHAT COINS ARE BRINGING  
PRICE LIST OF SALE \$1.00**

# IS THIS YOUR FIRST AUCTION CATALOG?

**Proof coins, branch mints 1892-1934 unc., currency and commemoratives** seem to be rising the most rapidly at present with most bringing close to listed values and a great number bringing even more. Many are rising from month to month with a number "just not obtainable." The coins most in demand will have the greatest number of bidders and with the law of supply and demand working, these coins keep setting new records.

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these coins come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of the results obtained in our past sales which reflect the actual and not theoretical value. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, ETC. ARE ESTIMATED AT CATALOG.)** in the final analysis, you the collector, are the one who sets the price.

**BIDS ARE RECORDED AS FOLLOWS:** Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.25. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even the auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. Coin collecting is a personal hobby which makes life a little more pleasant. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them as well as any compliments.

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING THESE  
SUCCESSIVE CATALOGS WITHOUT INTERRUPTION.**

## **BARGAINS GALORE**

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN.

## YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints, compliments (yes we receive some now and then), we want to hear them. Having cataloged over one hundred ninety successful coin auctions, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 per cent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 6¢ airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

## SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the **bid sheet**. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

As we start our 23rd YEAR AS PROFESSIONAL NUMISMATISTS we like to reflect back thru the years. Little did I (A. M. Kagin) think when I started collecting in 1928 that in addition to enjoying the hobby myself, I would have the opportunity to also help others. This opportunity presented itself in March 1933 when R. O. Hollinbeck engaged me in a professional capacity. With a brother "in the business," the collector bug "bit me" (Paul) the same year. We joined forces in 1940 when Hollinbeck left the business. Mr. Hollinbeck's motto: "Treat The Customer as You Wish To Be Treated Yourself," is still our creed as we distribute our 193rd coin auction.

The upward trend in prices for those prior to 1834 still continues. Compare present day prices with those of only six months or a year ago. We believe present day prices will appear as bargains in the relatively near future.

## TREASURY OR COIN NOTES

---

Only two series, 1890 with ornamental reverses and 1891 with open type reverses (to prevent counterfeiting). Due to the limited use of the 1890 issues, the amount available is quite small today. These two issues represent some of the most beautiful examples of engraving put out by the Bureau of Printing and Engraving.

## FEDERAL RESERVE BANK NOTES

---

A challenge to complete and judging from the rapid rise in values, a profitable investment. Some try to obtain one of each denomination from each bank, however we recommend the attempt to complete the series. Judging from the want lists on hand, there are undoubtedly many "sleepers" in this series.

Undoubtedly more "sleepers" exist in this series than any other. WE DO NOT KNOW OF A SINGLE COMPLETE SERIES. Long overdue adjustment in values must inevitably take place in the not too distant future. ## EARLY DIMES

The rarity of early dimes is understandable when one reflects that while the larger silver and gold coins were hoarded, the minor coins consisting of dimes, half dimes, cents and half cents were "spent" (which also accounts for the few uncirculated specimens known). We believe the early United States coins are somewhat undervalued in relation to the latter series and look for an upward adjustment in valuations in the not too distant future.

## LIBERTY HEAD DIMES

---

Recently, we had occasion to check thru want lists of 10 years ago and noticed that those which were the "most wanted" were those that advanced the fastest. Nearly all of the cheaper coins have advanced 25% to 35% in value while the scarcer ones have advanced from 300% to 500%. Also, many of the scarcer ones consistently brought over "book value." It is easy to see, 10 years later, who received the true "bargain" — the collector who bought the cheaper (and commoner) coins at a discount from catalog with the coins advancing slowly in value — or the collector who bought the scarcer coins at over "book value" with the coins advancing rapidly in value. We have noticed that the coins which brought the greatest premium over "book value" proved the best buy in the long run. You can't beat the law of supply and demand.

Undoubtedly, many of the following are "sleepers" destined to take a sharp increase in value in the near future. To show the rapid rise in values, we will compare "catalog prices" of 1951 with 1955. Usually, those rising the most rapidly will bring premiums over "catalog prices" — that is why they keep advancing so rapidly.

## DISCONTINUED COIN DENOMINATIONS

### TRADE DOLLARS

---

We note a sharp increase in interest in this, our only demonetized coin. Since the series is short and can be completed without too great an outlay (except 1884-85) it has attracted many new collectors. Future catalogs should show a marked increase in values, especially in the scarcer pieces. A careful analysis of those dates which have appeared on the market during the last year together with prices should give a good idea of which are advancing the most rapidly.

## TWENTY CENT PIECES

---

Intended to replace the quarter so that our coinage would be truly decimal, but since it resembled the quarter so closely in size and appearance, it caused too much confusion. Only struck in 1875 (and a few in 1876) for circulation (the 1877-78 were only proofs for collectors).
